**NOTES:**

**1/7/2016**

- Updated permission agreements for Geraldo Garcia have been requested from Foster's Mill, Kingwood Lakes, Riverbend, and Enclave
- Geraldo Garcia recommends that KSA put a corral in a remote portion of East End Park - cost for 6 ft diameter corral is \$500

**2/4/2016**

- Per Jessica Beemer with COH; Due to lack of reports of hog activity the corrals have been picked up and the contract has been suspended
- Per Fred McCarty with RSCA; due to decrease in activity they have reduced from 2 corrals to 1 corral.
- As of May Parks Meeting, reports of moms with babies

**9/1/2016**

Reported there is lots of activity in Royal Shores; Kings Point; and Reserve at Kings Point along with East End Park lots of female pigs with piglets

**10/6/2016**

Not as many reports and only 8 captured on edge of East End Park near waterfront near Friednswood property north of Royal Shores.

**11/3/2016**

The most reports are in the areas of Kings Point on Cobblestone ; Redwood Bridge Trl.;Lark Valley;Pebble Stream.  
Fosters Mill reports are in the areas of Golden Pond; and Riverchase is Sweetstem and Glade Hill  
Geraldo would like to place a corral for \$400 but we need a location and we are working with him on this suggestion.

**12/1/2016**

The reports are from the Reserve at Kings Point and Kings Point areas. Scenic Shores was hit this time.  
Hogs captured were in the back side of RAKP and KP  
The RAKP donated funds to place a corral near the waterline behind RAKP and KP area to help catch the hogs before getting up into the resident properties.  
The corral parts have been ordered and the corral will be placed shortly by Garcia.

**1/5/2017**

Talked to Geraldo, hogs do not come out as much at night when its cold; they are on the islands during the day. They will have the new corral up this month.  
The hogs that were captured were near Riverbend and the other on Kings Point Trail greenbelt. Large hogs not seeing as many moms with piglets at this time.

**2/2/2017**

I have not been able to talk to Geraldo for the count, when I receive update I will send this out by email.

**3/2/2017**

The reports have been in the area of the Deerwood Country Club and Redwood Bridge Trl (KPCA). Behind KPTA and East End Park

**4/6/2017**

All three reports have come from Redwood Bridge Trl. Area and Geraldo has captured 20 this past month.

**5/4/2017**

There have been no reports of feral hogs for the month of April, 2017. Our hog tracker has captured 8

**6/1/2017**

In the past week there have been 4 reports of hog damage in Kings Point area. Our hog tracker has captured 11, some in corral and others singles.  
We have had sightings of the coyotos all through Kingwood. In front in Deer Ridge Estates and back off Mills Branch Road. Two small dogs reported killed in Kings Forest.

**7/6/2017**

All the reports of hogs in June and this week have been near the Deerwood Country Club where our trackers are not to go. I have asked the residents to contact Deerwood.

**8/3/2017**

Few reports this last month, a couple from Kings Point that backs up to East End and 2 from Deerwood CountryClub area. At time of printing we had not received how many the hog tracker captured.

**9/7/2017**

We have not heard any activity in several weeks, early August there were signs of hogs In East End Park.

**10/5/2017**

There has been no activity since the flood.

**11/2/2017**

Lots of activity now - traffic of the hogs are being reported in East End Park and all along the waters going south to Royal Shores

**12/7/2017**

There has been activity in the entry of East End Park;front of Riverchase; eastside of Kings Point; and Royal Shores

**NOTES:**

**1/4/2018**

Reports were from Kings Point, Reserve at Kings Point, and Riverchase. Dead hog was reported at Forest Garden/Kingwood Drive so it must have come up the HCFC drainage ditch back side of golf course and out to Kingwood Drive. It had been hit by a vehicle and was removed by City.

**2/1/2018**

Reports were from Riverchase and Fosters Mill.

**3/1/2018**

Only one report from Riverchase for February

**4/5/2018**

No reports and tracker captured 9

**5/3/2018**

No reports on KSA website and tracker captured 4

**6/7/2018**

Two reports from Kings Point,

**7/6/2018**

No reports from residents but hog tracker captured 7

**8/2/2018**

No reports from residents but hog tracker captured 6

**9/6/2018**

Only one report from Reserve at Kings Point/Cobblestone near East End

**10/4/2018**

Hogs reported in area of Fall Orchard;Cobblestone Hill;Redwood Bridge Trl.;Magnolia Trace

Other reports from residents of Royal Shores received in the office that they were having hog damage in the Courts which indicates that the hogs are all along the waters edge.

**11/1/2018**

Riverchase entry/Kings Point/Reserve @ Kings point/ and Royal Shores along the end of East End Park and shoreline is where the hogs are being reported.

**12/17/2018**

Very few reports of hog damage but Royal Shores has been active.

**1/3/2019**

Eleven ncidents reported mostly in Royal Shores or eastside of Reserve at Kings Point near East End

**2/7/2019**

twelve (12) reports n RAKP and Kings Point area and one (1) report in Bear Branch near Creekwood on flood control ditch

Royal Shores has there corral active and waiting to catch the large group all at once and have removed.

**3/7/2019**

7 reports of hogs in February and 0 March so far. Kingwood Greens signed an agreement with our hog tracker.

Hog tracker captured 11 in February which is great; Royal Shores removed 8

**5/2/2019**

Kingwood Greens is getting hit; Kingwood Country Club notified of help needed to clear their hogs from the undeveloped area near KW Greens

Roya Shores is receiving no current sightings of hogs. East End Park there has been only one sighting in the early morning hours.

**5/30/2019**

Kingwood Greens has reported less this month;Fosters Mill had more and Kings Point reported twice.

This times me that KW Country Club and Deerwood Country Club plus Flood Control have assisted with hog removal.

KINGWOOD SERVICE ASSOCIATION  
SUMMARY OF FERAL HOG ACTIVITY

**7/11/2019**

Started in FM Estates in June, then RAKP, and now Kingwood Greens again

**8/1/2019**

Activity is East End Park through KPTA to back of Reserve @ KP. Kingwood Greens has reported several hits; and then a surprise hit reported from Trailwood on Cedar Falls which is first street up from Deer Springs near DR Park so all authorities have been notified. . HPD Lake Patrol; Harris County Flood; KW Country Club; and hog tracker.

**9/5/2019**

There were 33 reports of hogs since last meeting. Kings Point; Kingwood Greens; Riverchase; and Fosters Mill were damaged. Contact with Clubs of Kingwood was made; HCFC was called; and Kingwood Greens has hired hog hunters for their village. Royal Shores has put up their cameras again and monitoring activity.

**10/3/2019**

There were 22 reports of hogs and most were in Fosters Mill, Kingwood Lakes, Kingwood Greens, and Kings Point

**11/7/2019**

There were 55 reports of damage by hogs. Kings Point, Kingwood Greens, Fosters Mill, Sand Creek, Kingwood Greens Called Harris County Flood and got a contact for their hog tracker, he wants to meet to learn the hogs bedding areas in undeveloped land. I put him in contact with KWCC also. He hunts with dogs also. He has contract with HCFC. Been doing this for 20 years and wants to help us. Doesn't have insurance but we will work on this.

**12/5/2019**

There were 55 reports Activity was in Kings Point Scenic Shores and other areas; Kings River south of Kings River Dr.; Reserve back up to KPTA-East End Park; Royal Shores at Courts and Eagle Nest area; Fosters Mill Sunshine Point and Bluff Creek near Deerwood CC; Sand Creek Pecan Park off flood control ditch Geraldo - 10 East End Park and Mike removed 5 in Deerwood CC and 5 in Kings River

**12/20/2019**

Only 6 reports of hogs since 12-5-2019. Kings River 1; Sand Creek 2; Kings Point 1; Enclave 1; Royal Shores 1 Mike and Geraldo have both been tracking. Mike removed 3 hogs from Pecan Park SC; Scenic Shores 7 piglets; he tracked the bedding areas of Royal Shores and hunted this week. I'm asking for number captured.

**1/2/2020**

Fewer reports now so looking real good.

**2/6/2020**

12 reports and several where from the same areas. Both hog trackers are doing well, Garcia in East End and Mike in all others.

**3/5/2020**

9 reports of hog damage being from KP, RS, FM, and Barrington Garcia captured 4 in East End and Mike has been in all other areas but has not been able to capture the hogs because they are seen near the water of Lake Houston and they run and swim to the islands. He will be in the Royal Shores again tonight. He reports that they are small groups in Barrington but other places just a couple at a time.

April no details

May no detail report

**4-Jun-20**

Got report from Mike, will be out this week to cover Kings Point since there have been more calls and emails. Also hunting in Royal Shores, there have been reports by email.

**7/2/2020**

Garcia has not been able to hunt recently; best dog died; training young dogs; gathering a current report from him Mike has hunted but only able to capture 2 recently. The hogs are heading to the water and swimming to islands once his dogs have gotten on the scent. HPD Lake patrol has been called again to check the islands.

**7/9/2020**

Mike reports he is having issues with COVID at his business with 5 workers out sick; had to lay off some others; had a scare in his family and all were tested; just hard times right now but will try to get out to hunt real soon. Garcia has not reported in and I'm trying to contact him.

**8/6/2020**

Mike has not been able to hunt July but starting back now. He will keep in touch. Geraldo has hunted and captured 2. Its been very quiet; only one report in July and nothing more.

**9/2/2020**

They have both been out to the East End and along trail behind Kings Point where the hogs have been noticed. Not much hunting going on right now, Mike still working around COVID and Garcia is trying to find more dogs.

**10/1/2020**

Mike has not been able to come out as often since COVID. He is having to travel more now and is working to find others that can assist us while he is short employees. Garcia is now hunting more and has been more active.

**11/5/2020**

Mike is back with a couple of friends to help him. He has been in the Kings Point area but hogs are running so only captured/killed two Garcia is tracking in East End Park area and reports he captured/removed 6 Royal Shores has put in corral and has captured 5 so far but still getting damage Kings Point Trail has placed a corral and I'm waiting on number so far but know a deer was caught in corral and had to be killed by game warden. So there has been lots of activity but there is hunting and corrals being used to get this back under control.

**12/3/2020**

Mike has been hunting and killed 4 - checked Deer Ridge Park but can't find the hogs he suspects they got back to the drainage ditch or went toward River Grove to water Garcia has been hunting EE and captured 7 Royal Shores corral but had one road kill incident that removed one hog. Kings Point Trail corral has not been successful and this is being verified, So less reports and less hog removal but we are staying on the tracking to make sure it doesn't increase again.

**NOTES:**

**1/7/2021**

Hog corral removed in Royal Shores and now being removed from Kings Point Trail; there were only 3 reports since last meeting in December a and 2 reports in January. The activity has been very low.

**2/4/2021**

There were 5 reports and all in Stately Oaks/Kings Point area.

**3/4/2021**

Thre were five reports of hog damage in the Kings Point area.

One report of hog running down the middle of the street of Clear Ridge in Sherwood Trails

no damage reported. Just thought you would enjoy a laugh, the Woodlridge property is behind Sherwood Trails and Elm Grove.

Maybe they are coming from that property, not sure where the nearest waterway would be from the middle of the subdivision.

**4/1/2021**

There was only one report of hog damage since our last meeting from Kings Point area. The hog trackers were notified.

Geraldo reported he came up on a sow with piglets ; but Mike repeorted unsuccessful this month.

Kings Point Trail had a corral for two months and captured nothing. Royal Shores removed their corral also.

**5/5/2021**

Kings Point had 5 reports behind stately oaks area against East End Park; Royal Shores had 1; and East End Park near Otter Creek

there was report of several hogs at 3 p m - the hogs were not afraid of the people but the people got out of the area quickly.  
There are no corrals in Royal Shores or Kings Point now. No luck with corrals,  
No reply in time for meeting from Mike.
