

Numbered K Stickers
Kingwood Service Association Members

Numbered K Stickers are required for entry for all vehicles into Kingwood Service Association parks. K Stickers are for resident members of Kingwood Service Association only. All vehicles without a numbered K Sticker properly attached will be subject to towing at the owner's expense.

Each sticker is registered to a single vehicle and cannot be used on another vehicle. Proof of vehicle and boat registration is required. KSA will not dispense any sticker without proof of each. It is prohibited for stickers to be sold or given to another.

The sticker can be applied only once. The sticker will shred with any repositioning or removal and is not reusable. A vehicle with a damaged sticker will be subject to towing at the owner's expense. All stickers must remain visible or the vehicle is subject to towing at the owner's expense.

For Vehicles:

Peel the backing and carefully place the vehicle sticker on the left side of the rear window of the vehicle. This is the recommended location. A second location is the left side of the rear bumper, but this is done at the owner's discretion. Mounting the sticker inside the vehicle is prohibited and the vehicle will be subject to towing at the owner's expense.

For Boat Trailers:

For the boat trailer, peel the backing and carefully place the boat trailer sticker on the left side of the rear of the trailer.
